

Restriction of Hazardous Substances (RoHS) Policy (European Community Directive 2002/95/EC)

We conduct business responsibly and in a manner designed to protect the health and safety of our employees, our customers, the public and the environment. Bilsa Kalip is committed to being proactive in addressing regulatory changes and implementing necessary procedures to ensure compliance with these requirements. The European Union (EU) Directive 2002/95/EC, on the Restriction of Hazardous Substances (RoHS) went into affect on July 1, 2006 and is aimed to protect human health and the environment. The RoHS Directive mandates that electrical and electronic products (EEE) put in the marketplace within the EU shall contain restrictive levels of Lead (Pb), Cadmium (Cd), Mercury (Hg), Hexavalent Chromium (Cr6+), Polybrominated Biphenyls (PBB), and Polybrominated Diphenyl Ethers (PBDE) considering the following amounts;

- Lead (Pb): < 1000 ppm
- Mercury (Hg): < 100 ppm
- Cadmium (Cd): < 100 ppm
- Hexavalent Chromium: (Cr VI) < 1000 ppm
- Polybrominated Biphenyls (PBB): < 1000 ppm
- Polybrominated Diphenyl Ethers (PBDE): < 1000 ppm

Bilsa Savunma Teknolojileri is committed to providing RoHS Compliant products to meet our customers' needs. Bilsa Kalip monitors our process and material changes to ensure RoHS compliance before implementing these changes.

REACH Compliance Policy

Bilsa Savunma requests information from our suppliers to ensure our compliance with regards to Article 33 of the European REACH Regulation N 1907/2006 on the Registration, Evaluation, Authorisation and Restriction of Chemicals which has entered into force on June 1, 2007.

With the publication of the "candidate list" (Article 59 REACH) on 28 October 2008, Article 33(1) of the REACH Regulation obliges suppliers to inform the recipients of the presence of Substances of Very High Concern (SVHC). At present, 16 substances have been included in the "candidate list".

Substances of Very High Concern (SVHC):

1. Carcinogenic, Mutagenic or toxic to Reproduction (CMR), meeting the criteria for classification in Category 1 or 2 in accordance with Directive 67/548/EEC,
2. Persistent, Bioaccumulative and Toxic (PBT) or very Persistent and very Bioaccumulative (vPvB) according to the criteria in Annex XIII of the REACH Regulation, and/or
3. Identified, on a case-by-case basis, from scientific evidence as causing probable serious effects of human health or the environment of an equivalent level of concern as those above (e.g. endocrine disruptors).

Based on available information and analytical data from our suppliers, none of the restricted chemicals are contained in any substance, chemical, part or assembly supplied in Bilsa Savunma's products
